Vision & Mission

PROFESSIONAL SURVEYORS CANADA
GÉOMÈTRES PROFESSIONNELS DU CANADA

Vision:

- All Canadians understand and value the role of the professional surveyor

Mission:

- Advocating on behalf of our members and the profession
- Promoting the importance of the profession to the public
- Supporting our members through membership services and benefits

PSC's Role Amid the Changing Landscape

PROFESSIONAL SURVEYORS CANADA
GÉOMÈTRES PROFESSIONNELS DU CANADA

- We continue to hear from leaders in our industry that a strong PSC focused on the top issues is the best path forward for our industry.
- PSC Can offer traditional "National Association" benefits and member services that the Non All-in provincial regulators cannot.
- PSC is working with these new Non All-in provinces to increasingly assume key member services that they can no longer provide as regulators under their new acts, while connecting with the industry at all levels in a more meaningful and regular way to determine their needs and top issues.
- PSC is uniquely positioned to engage Surveyors Nationally while having a presence locally as seen by recent initiatives and planned future ones.

PSC Initiatives

Company Membership Program

- With Alberta and BC now out of the “All-in” Provincial model, PSC created the Company Membership Model for companies in those provinces, and other Non All-in provinces, to be able to support PSC while providing their employees with all the benefits of a PSC membership.
- In some Non All-in provinces. Up to 90% of Surveyors in those provinces will be covered by a few large PSC member companies. We anticipate revenues from the annual company membership renewals will largely offset the decline in All-in provinces fees.
- The “All-in” Provincial model and the Company Membership Model are completely compatible.

PSC Alberta Chapter

- In the fall of 2023 the PSC Alberta Chapter was formed in anticipation of the ALSA no longer being an "All-In" province as of summer of 2024.

- The PSC Alberta Chapter was the inspiration of a group of Alberta Land Surveyor leaders who reached out to PSC on the idea. The goal of the chapter is to connect with Alberta Land Surveyors locally offering regional events and initiatives focused on the top issues, with support of PSC National.

- The PSC Alberta Chapter has hosted two Golf Tournaments at Lacombe Golf & Country Club and has a Webinar Series in development for 2024/25.

PSC Initiatives (cont'd)

PSC Surveying Leaders Forum

- In the fall of 2024 PSC will be developing a unique, in person Forum specifically for Land Surveyors. This is not a conference. Instead, it will be a day-and-a-half of in-person roundtable discussions on strategies, innovations, emerging best practices and new approaches, all in the exclusive company of 30 to 35 leading Surveyors.

PSC Revamped Industry Newsletter

- Also this fall, PSC will be shifting from a twice a year Magazine format to a more frequent Industry Newsletter format. We heard the feedback loud and clear that more frequent, easier to access communications on industry and PSC updates is what's wanted.

I do not supervise any employees	10.17%

PSC Initiatives

Unauthorized Practice

- The reason to license surveyors and regulate the practice is to protect the property interests of the landowning public.
- Unauthorized practice may be perpetuating fraudulent misrepresentation that is dangerous, costly and cause significant issue in the management of land.
- PSC is promoting the P.Surv Designation and developing a national campaign to educate the public on the consequences of unauthorized practice.

Member Benefits

The PSC Network
Professional Surveyors Canada makes up an extensive network of Professional Surveyors across the country and around the world through our international partnerships.
